19 July 2018

Dear Mrs Beedham

This report outlines your patient feedback from the Improving Practice Questionnaire (IPQ). Your results have been illustrated in tables and graphs with associated benchmarks where applicable. Details of score calculation and statistical methods have been provided to help you in the interpretation and understanding of your results. You will also receive an A4 poster summarising your results and a certificate of completion which you may like to display to patients to indicate that you value their views in order to inform positive change within your practice.

A guidance template for discussion of these local survey findings and an action plan have also been included which may help facilitate discussions with your patient reference group (PRG).

The format of this report has been updated, which we hope will provide you with a clearer picture of performance.

We hope these results give you useful feedback as to how patients rated the practice and its service, and provide you with a basis for reflection. In order to enable us to improve our services we would be grateful if you could complete a feedback form using the following link:

<http://www.cfepsurveys.co.uk/questionnaires/feedback/default.aspx?psid=223645>

Please contact the office on 01392 927005 or reports@cfepsurveys.co.uk if you require further information about your report.

Yours sincerely

CFEP UK Reports Team

Introduction

About the IPQ

The IPQ is a well-established questionnaire widely used in the UK.

Since 2004, over 3,000,000 patients have completed an IPQ providing valuable patient feedback to over 4,000 practices and over 16,000 health practitioners, many of these practices and health practitioners having completed the survey on more than one occasion.

Extensive published validation studies have established that the IPQ is a reliable and sensitive tool: accurately measuring patient satisfaction in designated areas and is sensitive to change - if the IPQ is carried out on more than one occasion any change in patient perception of service can be clearly and reliably monitored.

This report outlines the feedback that has been collected and analysed from a sample of your patients. Full explanation on how to interpret this information can be found in the report. We hope that this feedback is useful and a basis for reflection.

A sample of the IPQ questionnaire is included at the end of this report for reference.

About the benchmarks

Benchmarks are a useful guide as to how your practice performed in relation to all the practices who have carried out an IPQ survey. Benchmark data provided relates to either all practices or according to practice list size (the practice list size benchmarks displayed in this report are representative of your practice), as we have established this plays a part in scores achieved. However, it should be noted that other factors such as geographical location and clinical setting may also affect scores and benchmarks may not always be truly representative. Furthermore as it is not mandatory for a practice to carry out an IPQ survey, benchmarks provided are effectively based on data collected from a *volunteer* sample. Volunteer samples often perform better than an 'average' sample which could make the benchmarks provided artificially high.

Your feedback

From the report you will be able to clearly pinpoint areas where you scored well and also those areas where you might feel that improvements may be needed. However, it is advisable to take time to assimilate all the feedback and to avoid scanning the report and noting specific scores on which too much emphasis can be placed. In fact, the clearest reflection of patient satisfaction can often be seen in the frequency and distribution of patient ratings and in their written comments.

A page by page guide to the interpretation of your report has been incorporated in the supporting documentation at the end of this report which you may find useful.

Other useful information

Together with your report you will receive:

- An A4 poster: to enable you to share the results of your local survey with the patients in your practice.
- A 'Guidance template for discussion of local findings and action plan' to help you reflect on the survey results.

 Your mean score for this question falls in the lowest 25% of all means

9541

*Based on data from 927 practices carrying out 1,326 surveys between April 2010 and March 2013 with 25 or more responses. Please note the reliability of your patient feedback may be marginally reduced if less than 25 patient ratings per question is achieved (see table 1). In the event that there are less than 5 patient responses for any question, the corresponding score will not be illustrated. Please see the supporting documents at the end of this report for percentage score calculation and quartile information.

Your patient feedback

All written patient comments have been included in their entirety but details which could identify a specific patient have been removed to ensure anonymity.

Any comments about how this practice could improve its service?

- Ability to make telephone appointments is vital.
- Cannot get through on phone between 8:30am and 9am.
- You always have to phone on the day and don't always get an appointment, you can't pre-book in advance.
- Opening earlier in cold weather! Queue gets longer and winds colder outside!
- I find this practice very helpful and obliging. Can't fault them!
- Takes too long to get an appointment with a known doctor.
- Don't use the practice an awful lot so some of these answers are based on perception and my parents (elderly) experience of the practice and staff.
- It is very difficult to obtain an appointment by telephone to see a doctor. Regularly told to ring back next day, although response the following day is often the same.
- If you have a problem with a prescription etc., it can become very painful and awkward with certain members of staff.
- Trying to get an appointment first thing on a morning is difficult due to getting through.
- No improvement needed.
- Test results involving cancer checks to be given (and need for test) by a doctor not a receptionist. Twice I was given misleading results resulting in unnecessary stress - the need for a cancer check given by letter by receptionist.
- Difficult at times to get through on phone to book appointments at 8:30am. Perhaps extend the number of appointments available online.
- More privacy at reception desk. Overall very clean surgery now carpets have gone and seating.
- Less waiting time to see a doctor when you have an appointment.
- More phone lines. More same day appointments. More chairs in waiting room. More privacy at front desk when asked what problem is.
- Being able to get appointments when needed.
- Reception new bench sitting is uncomfortable and I nearly slipped off chair when another patient moved. There are no general interest magazines or children's resources e.g. small books available at all.
- I like to see a lady doctor.
- Improve appointment system and actually seeing a doctor when you need to.
- None. Practice layout has improved immensely. New floor, etc.
- Very happy with everything.
- I have no problems with service.
- More GPs.
- More appointments.
- Water machine?
- It is sometimes difficult to get through on the phone at 8:30am but has got a little better the last couple of occasions.
- Some magazines would be nice.
- Nothing.
- Less waiting time. More appointments.

Your patient feedback

All written patient comments have been included in their entirety but details which could identify a specific patient have been removed to ensure anonymity.

Any comments about how this practice could improve its service?

- Making an appointment to see a doctor by telephone in the morning can sometimes be difficult. Lines are always engaged!
- I think the practice is well organised and very efficiently run.
- Not at this moment. I am really quite happy with my treatment at this surgery.
- Would be better if you could actually get to see a doctor when needed when really ill as emergency appointments in the morning are gone by 8:45 by the time we get through on the phone.
- Receptionists should not shout so everyone can hear. Need to be more understanding to patients. Lack of privacy.
- Opening times extended. More online appointments available please.
- All OK.
- Sometimes hard to get an appointment within 48 hours.
- Unless you can an appointment on the same day before they are all gone then making an appointment for that week or the next is impossible. Earliest bookable appointments are 6 weeks!

Your patient feedback

All written patient comments have been included in their entirety but details which could identify a specific patient have been removed to ensure anonymity.

Any comments about how the doctor/nurse could improve?

- Be more friendly and explain more.
- This doctor always puts me at ease and listens to my concerns. She is a credit to the practice.
- Good.
- Had very good advice.
- Not rushing so much.
- None at all.
- Great doctor.
- Longer appointment times given, 10 minutes is not enough feels rushed!
- None, this doctor very nice doctor.
- This doctor is an excellent doctor. Every time I see him I'm satisfied. When I came about depression he gave me every opportunity, respect and set me off great with my ongoing medication.
- All was good. I have no issues with this doctor.
- I was not offered any general information, leaflets or groups to contact regarding the condition I have just been diagnosed with. Felt my appointment was rushed and I am just left to get on with managing what I have to do, I should have been given a longer appointment. I should have been booked into a double appointment. I came to the surgery a few days beforehand, as I said I had a lot of questions I needed to ask to give information to my employer.
- No improvements needed. Lovely doctor.
- Excellent. No problems at all!
- No. I am happy with everything I always receive excellent treatment.
- Excellent.
- No faults at all.
- None, lovely GP.
- Nothing.
- Please make sure this doctor remains part of the team here!
- No, excellent thanks!
- All OK.

Details of score calculation

The score provided for each question in this questionnaire is the mean (average) value of all of the ratings from all patients who completed the question. It is expressed as a percentage - so the best possible score is 100%.

Example using data from your Q1 Opening hours satisfaction

Total number of patients responses = 190

| Questionnaire rating scale | Poor | Fair | Good | Very Good | Excellent | Blank/spoilt |
|----------------------------|------|------|------|-----------|-----------|--------------|
| Number of ratings | 0 | 19 | 70 | 63 | 37 | 1 |

| Value assigned to each rating | 0 | 25 | 50 | 75 | 100 | n/a |
|-------------------------------|---|----|----|----|-----|-----|
| | | | | | | |

$$\frac{(\text{number of Poor ratings} \times 0) + (\text{number of Fair ratings} \times 25) + (\text{number of Good ratings} \times 50) + (\text{number of Very Good ratings} \times 75) + (\text{number of Excellent ratings} \times 100)}{(\text{Total number of patient responses} - \text{number of blank/spoilt})} = \frac{(0 \times 0) + (19 \times 25) + (70 \times 50) + (63 \times 75) + (37 \times 100)}{(190 - 1)} = 12,400/189$$

Your mean percentage score for Q1 = 66%

Explanation of quartiles

In statistics a quartile is any one of the three values that divide data into four equal parts, each part represents ¼ of the sampled population.

Quartiles comprise:

Lower quartile, below which lies the lowest 25% of the data

The median, cuts the data set in half

Upper quartile, above which lies the top 25% of the data

Please note that the benchmarks presented in this report are based on data obtained from a volunteer sample of practices, and as such may be artificially high.

| Question | Your mean score (%) |
|-------------------------------|---------------------|
| Q1 Opening hours satisfaction | 66 |

| Benchmark data (%)* | | | | |
|---------------------|----------------|--------|----------------|-----|
| Min | Lower quartile | Median | Upper quartile | Max |
| 23 | 64 | 68 | 73 | 92 |

9541

*Based on data from 927 practices carrying out 1,326 surveys between April 2010 and March 2013 with 25 or more responses.

Supporting documents

Page by page guide to the interpretation of your report

Page 1

The frequency distribution table (table 1) shows the number of patient ratings from poor to excellent and the number of 'blank/spoilt' responses for every question (a blank response is where a patient did not respond to the question and a spoilt response is where more than one tick box option was chosen or if the questionnaire was defaced). If these values are added up, for any one question, this will equate to the total number of patients surveyed (shown in the top right hand corner of the page). This table clearly shows the degree of satisfaction patients have with each aspect of the practice considered. Please note the spread of the ratings. Are they widely spread or closely packed around one or two specific ratings? One or two higher or lower ratings can make a big difference to your mean percentage scores illustrated in tables 2 and 3.

Page 2

The mean percentage score and benchmark table (table 2) illustrates your mean percentage scores for each question calculated from the data in table 1. Each score is the mean (average) score calculated from valid patient ratings (i.e. not the blank/spoilt responses) expressed as a percentage (see score calculation sheet also in the supporting document section of your report). It has been established by our statisticians that the reliability of your patient feedback for any one question may be marginally reduced if less than 25 valid patient responses is achieved (this number can be determined from table 1). In the event that there are less than 5 patient responses, the corresponding score for the question will not be illustrated.

Your scores have been displayed in colour coded boxes to indicate how your score falls within the benchmark data (within the highest 25%, the middle 50% or the lowest 25% of all the mean percentage scores achieved by all practices in the benchmark sample). The provenance of the benchmark data is provided in the footer below the table.

Graph 1 illustrates your mean percentage scores in ascending order of performance with benchmark means from all participating practices.

Page 3

Table 3 and graph 2 are the same as for page 2, but with benchmarks provided relevant to your practice list size. Evidence indicates that practices with smaller list sizes tend to perform better than those with larger list sizes.

Page 4

Table 4 shows the number of patient responses from each 'demographic' group detailed on the questionnaire i.e. age, gender, if the patient saw their usual practitioner or not and the number of years attending the practice. Demographic category mean percentage scores are calculated from all the ratings from all questions for that demographic group. Associated benchmark mean scores relevant to your practice list size are also provided.

The same criteria concerning reliability of the feedback as explained in Page 2 above applies.

Page 5

Table 5 lists your current scores for each question together with scores from your last 3 surveys (if applicable) for comparison.

Page 6

Patient comments usually reflect scores achieved. The IPQ was designed to simulate the patient's chronological journey through their visit to the practice. Although the questions in the IPQ are generic, comments can pinpoint specific issues identified by the patient from any part of this journey. If there is a particular problem within the practice e.g. getting through in the morning on the telephone or the lack of chairs in the waiting room suitable for the elderly, this can be clearly picked up in the themes and frequency of comments.

In order to ensure patient anonymity, any personal identifiers are removed. In the unlikely event that we receive a written comment which might relate to serious professional misconduct (e.g. allegations of sexual assault), the comment would be referred to our Clinical Associate who would discuss the matter with you.

Improving Practice Questionnaire

| | Practitioner ID |

You can help this general practice improve its service

- This practice would welcome your honest feedback
- Please read and complete this survey after you have seen the
- All the information provided by patients is put together in a report for the practice. Your answers will not be identifiable. Any comments you make will be included but all attempts will be made to remove information that could identify you.
- Once completed, please return this survey to reception in the envelope provided

Please mark the box like this with a blue or black ball-point pen. If you change your mind just cross out your old response and make your new choice.

When giving your feedback, please only consider the consultation you have had today.

About the practice

| | Poor | Fair | Good | Very good | Excellent |
|---|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 1 Your level of satisfaction with the practice's opening hours | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 2 Ease of contacting the practice on the telephone | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 3 Satisfaction with the day and time arranged for your appointment | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 4 Chances of seeing a doctor/nurse within 48 hours | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 5 Chances of seeing a doctor/nurse of <u>your</u> choice | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 6 Opportunity of speaking to a doctor/nurse on the telephone when necessary | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 7 Comfort level of waiting room (e.g. chairs, magazines) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 8 Length of time waiting in the practice | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

About the doctor/nurse (*whom you have just seen*)

| | Poor | Fair | Good | Very good | Excellent |
|--|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 9 My overall satisfaction with this visit to the doctor/nurse is | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 10 The warmth of the doctor/nurse's greeting to me was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 11 On this visit I would rate the doctor/nurse's ability to really listen to me as | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 12 The doctor/nurse's explanations of things to me were | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 13 The extent to which I felt reassured by this doctor/nurse was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 14 My confidence in this doctor/nurse's ability is | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 15 The opportunity the doctor/nurse gave me to express my concerns or fears was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 16 The respect shown to me by this doctor/nurse was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 17 The amount of time given to me for this visit was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

About the doctor/nurse (continued....)

| | | Poor | Fair | Good | Very good | Excellent |
|----|---|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 18 | This doctor/nurse's consideration of my personal situation in deciding a treatment or advising me was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 19 | The doctor/nurse's concern for me as a person on this visit was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 20 | The extent to which the doctor/nurse helped me to take care of myself was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 21 | The recommendation I would give to my friends about this doctor/nurse would be | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

About the staff

| | | Poor | Fair | Good | Very good | Excellent |
|----|--|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 22 | The manner in which you were treated by the reception staff | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 23 | Respect shown for your privacy and confidentiality | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 24 | Information provided by the practice about its service (e.g. repeat prescriptions, test results, cost of private certificates etc) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Finally

| | | Poor | Fair | Good | Very good | Excellent |
|----|--|--------------------------|--------------------------|--------------------------|--------------------------|--------------------------|
| 25 | The opportunity for making compliments or complaints to this practice about its service and quality of care | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 26 | The information provided by this practice about how to prevent illness and stay healthy (e.g. alcohol use, health risks of smoking, diet habits etc) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 27 | The availability and administration of reminder systems for ongoing health checks is | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |
| 28 | The practice's respect of your right to seek a second opinion or complementary medicine was | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> |

Any comments about how this **practice** could improve its service?

Any comments about how the doctor/nurse could improve?

The following questions provide us only with general information about the range of people who have responded to this survey. No one at the practice will be able to identify your personal responses.

| | | | |
|---|---|---|--|
| <p>How old are you in years?</p> <p><input type="checkbox"/> Under 25</p> <p><input type="checkbox"/> 25-59</p> <p><input type="checkbox"/> 60+</p> | <p>Are you:</p> <p><input type="checkbox"/> Female</p> <p><input type="checkbox"/> Male</p> | <p>Was this visit with your usual clinician?</p> <p><input type="checkbox"/> Yes</p> <p><input type="checkbox"/> No</p> | <p>How many years have you been attending this practice?</p> <p><input type="checkbox"/> Less than 5 years</p> <p><input type="checkbox"/> 5-10 years</p> <p><input type="checkbox"/> More than 10 years</p> |
